

DOT Licensing and Inspection Procedure

§107.805

An Independent Inspection Agency (IIA) must visit your facility and make recommendations to the Approvals Branch for your RIN number. The inspector will review the equipment for 1% accuracy and make sure that all of the operators listed on the facility license are capable of performing the re-qualification procedure properly and that they have been trained and tested to §172.704 requirements.

There is a cost involved with this inspection. Pricing depends on many circumstances and should be negotiated directly with the Independent Inspection Agency providing the service.

It is suggested that you contact all of the above for the best price / value for the inspection.

It is recommended that you secure an IIA that will assist you with any DOT questions or regulations that may occur during your 5 year license period.

Allow a **minimum of 120 days prior** to the expiration of your license to start the re-licensing procedure.

What will the Independent Inspection Agency (IIA) be looking for?

- Test machine accuracy of 1%
- Proper equipment to re-qualify cylinders (dryers, test adapters, vise, torque wrench, etc...)
- Proper record keeping of verification and retest.
- Compliance with requirements for hazmat training
- Certificate of training and training material for all cylinder re-testers in accordance with §172.704
- Understanding of the regulations of section 49 CFR that pertain to your business
- Proper CGA pamphlets and current edition of 49 CFR §'s 100-185

Most IIA's will provide a check off list prior to the inspection.

If the IIA does not offer a check off list - ask for one. You want to make sure that you are properly prepared for the inspection that you are paying for.
